

CARESCAPE  
**ONE**  
*All in ONE*

# CARESCAPE™ ONE - All in ONE

*redefining transport monitoring*

Get ready for a leap ahead in patient monitoring. The CARESCAPE ONE system lets you use the same standardized monitor for intra-hospital transport needs. Intuitively designed with smart parameter technology, it provides data continuity and full flexibility across multiple care areas. It offers optimal total cost of ownership, meeting clinical needs today while enabling tomorrow's technologies.

Patients today are transferred often for diagnostics and therapies. Yet each transport poses potential risk <sup>1)</sup>: Patients en route need the same monitoring vigilance as at bedside. Meanwhile, patients are sicker. Resources are stressed <sup>2)</sup>. Overburdened clinicians must do more with less.

Imagine ONE standardized monitor that makes transport as easy as "unplug and go". ONE monitor providing a large display for patient status, capturing vital signs without interruption and quickly adapting to your care area. ONE monitor that eliminates the need of multiple devices and versions helping to minimize capital and service costs while protecting existing investments.

***That's CARESCAPE ONE***  
*Making virtually every bed a transport bed.*

# CARESCAPE ONE - workflow excellence

## ONE simplified workflow

*Fully enabled CARESCAPE ONE adapts to changing care environments with the simple step of a parameter device connection.*

Elegantly simple transport workflow lets you focus on the patient – not the device. Simply undock the **CARESCAPE ONE** unit from the CARESCAPE bedside monitor. At the destination, dock the unit into the bedside monitor. Via intelligent design alarming is uninterrupted; data continuity is preserved throughout and sent to the EMR.

Changing measurements for different care areas means simply adding or removing **CARESCAPE PARAMETER** devices.

## ONE powerful transport

*With a lightweight intuitive design, every patient monitor is ready for transport without the need for additional components.*

**CARESCAPE ONE** helps make patient transport workflow effortless. A large screen highlights a slim, lightweight unit that travels on a simple bed mount. Parameters are easily added through miniaturized plug-in digital devices. World-class GE algorithms provide precision, accuracy and specificity.

**ECG** - 3-, 5-, 6-, 10-leadset

**SpO<sub>2</sub>** - GE TruSignal™, Masimo, Nellcor

**CO<sub>2</sub>** - Respiration LoFlo™

**Temp** - Dual Channel

**Pressure** - Dual Channel

# CARESCAPE ONE - *smart flexibility*

## ONE bold concept

*Smart and miniaturized technology secures easy integration of today's and tomorrow's clinical advancements.*

**CARESCAPE ONE** meets your current needs and positions you for the future. Its innovative design with open architecture leaves wide space for technology advances. CARESCAPE ONE has capacity to manage large number of **CARESCAPE PARAMETERS** through standard medical USB connections. Acquiring new measurements will be as simple as adding more miniaturized plug-in parameter devices.

## ONE flexible system

*Smart medical USB interface enables dynamic parameter recognition to instantly adapt to patient acuities and care area needs.*

**CARESCAPE ONE** lets you quickly and easily choose the exact vital sign measurements each patient needs. Eight identical medical USB interfaces receive plug-in parameter devices. Plug any CARESCAPE PARAMETER into any port – the monitor recognizes them automatically.

# CARESCAPE ONE - investment protection & ease of service

## ONE standardized solution

*True device standardization on a single monitor platform streamlines asset management and optimizes total cost of ownership.*

One transport monitor accommodates patients across multiple departments. There's just one monitor to procure, manage and service – no need for multiple versions that drive up costs and complicate service and clinical workflow. Full compatibility with CARESCAPE™ bedside monitor and the CARESCAPE™ Central Station protects your investments; easy upgrades limit future capital costs.

## ONE durable design

*A system crafted with highly robust materials fits the most demanding clinical environments.*

Standardized platform and USB device connection make it easy to maintain. Most parts are easily serviceable in the field without special expertise. All components are built to resist breakage, cuts, abrasion, impact, fluid ingress – all the challenges of harsh clinical settings.

## Secured and serviceable

Every CARESCAPE ONE and CARESCAPE host monitor comes with a two-year preventive maintenance schedule that reduces service costs.

Flexible warranty and service offerings are customizable to meet your needs. Robust data encryption and cyber security ensure protection of patient data.

The CARESCAPE Service Interface (CSI) allows you to manage and troubleshoot your assets saving you time and resources.

# CARESCAPE ONE

*A part of the care ecosystem*

The CARESCAPE ONE monitoring solution plays a vital role in your system of care. You benefit from a legacy of excellence and innovation in clinical devices and physiology algorithms. It integrates seamlessly to your enterprise ecosystem throughout care areas, improving traceability, and staff efficiency and clinical decision-making.

# CARESCAPE ONE - Built from the CARESCAPE heritage

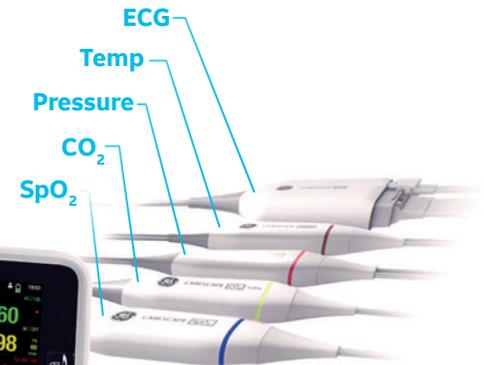

**CARESCAPE B850**  
Bedside Monitor

**CARESCAPE ONE**  
Monitor

**CARESCAPE PARAMETER**  
Devices

GE monitoring solutions are embedded with proven technologies for clinical performance based upon a strong heritage of working with physiological parameters and partnerships GE capitalized over the last decades.

CARESCAPE ONE reaches its highest potential when combined with other GE CARESCAPE monitoring.

*Benefit from over **40** years of excellence in patient monitoring.*

## Imagination at work

Product may not be available in all countries and regions. Full product technical specification is available upon request. Contact a GE Healthcare Representative for more information. Please visit [www.gehealthcare.com/promotional-locations](http://www.gehealthcare.com/promotional-locations).
